

Najib Alejandro Loera Rodriguez

MOBILE & BACKEND DEVELOPER (ANDROID, IOS / SPRING BOOT)

Location: Durango, México | Phone: +52 675 115 3007

Email: alejandrorod35@gmail.com |  [GitHub](#) |  [LinkedIn](#) |  [Portafolio Web](#)

Professional Profile

Mobile developer with over 4 years of experience, specialized in Android (Kotlin, Java, JetpackCompose) and with experience in iOS (Swift, SwiftUI). Strong focus on Kotlin Multiplatform (KMP) for cross-platform shared solutions. Expert in building scalable, secure, and high-impact applications, including critical systems with real-time processing. Solid knowledge in clean architecture, Firebase, REST APIs, Docker, and mobile databases. Interested in contributing to international teams with a high technological level.

Education

Technological Institute of Durango - B.Sc. in Computer Systems Engineering, specialization in Data Science (2016 – 2021)

CBTis No. 109 - Programming Technician (2013 – 2016)
